

2019 VCU Student Health Grand Rounds - 9/27/2019

Provided by VCU Student health

Speaker: DAMIEN HOWELL

Topic: VCU student health grand rounds are held on Friday mornings and provide continuing education for the providers at VCU student health.

Objective(s): 1 1. Given list of 15 common gait deviations describe in detail the following 3 gait deviations: too long a stride; excessive stance phase contralateral pelvic drop; and a loud foot strike

2 2. Given a list of 15 common musculoskeletal pain syndromes and their associated gait deviations for each of the pain syndromes use patella femoral arthralgia pain syndrome as an example of how to initiate a gait analysis process for musculoskeletal pain syndromes.

3 3. Given a patient with musculoskeletal pain syndrome identify and demonstrate key tactics and techniques of gait analysis including at least the following: conducting analysis while patient has symptoms and/or gait deviations; two views; exposure of key body landmarks; and use of smart phone video slow motion video technology

Location: 1300 W. Broad st suite 2200
