Houston, Texas

2017 Palliative Care

Symposium Information

Overview

This symposium is designed for nurses, physicians, social workers, pharmacists and clergy who are involved in working with clients who have life limiting illnesses, and their families, and/or have need of palliative care.

Learning Outcomes

- Apply the principles of palliative management of geriatric patients including pain management
- Demonstrate how the Virginia Physician Order Scope of Treatment (POST) reflects various clinical instances
- Comfortably determine which patients can be appropriately referred to outpatient an outpatient palliative care clinic
- Correctly identify and manage anxiety in a palliative care setting

Handouts

Participants will receive an email prior to the event with a link to downloadable conference presentation handouts.

Continuing Education

Nurses: 6.0 CE contact hours.

VCU Health is an approved provider of continuing nursing education by the Virginia Nurses Association, an accredited approver by the American Nurses Credentialing Center's Commission on Accreditation.

Physicians: VCU Health Continuing Medical Education is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

VCU Health Continuing Medical Education designates this live activity for a maximum of 6.0 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Registration Information

The registration fee includes program materials, continuing education credits, continental breakfast, refreshments and luncheon. Online registration is through VCU Health's Learning Exchange. Non-VCU participants will need to create an account in order to register. Credit card payment is online via a secure encrypted card processor.

Keynote Speaker

Holly Holmes, MD, MS, Division Director, Geriatric and Palliative Medicine, University of Texas

Dr. Holmes focuses on the care and treatment of older people, and prioritizes healthy aging while incorporating evidence-based medicine into an individual treatment plan. Her research and clinical interest focuses on the appropriate use of medications in older patients, particularly those approaching end of life. Her funded research is in pharmacoepidemiology, evaluating claims data for medication use patterns in older patients.
