About the Venue

The new Virginia Treatment Center for Children is a modern facility that eases the stigma surrounding mental illness and improves access to care. The inspirational design incorporates natural light, green space and unique safety features important to modern mental health care. It also allows for increased space to train future generations of children's mental health providers and conduct innovative research initiatives that will enhance treatment and prevention efforts.

Audience

The target audience for this conference includes physicians, nurse practitioners, physician assistants, nurses and others who provide primary care to children and adolescents, as well as psychologists, behavioral counselors, social workers and others who provide mental health services to children and adolescents.

Course Description

The focus of the day is mental and behavioral health and those at risk who present in the pediatric primary care provider setting. Participants will be able to:

- Recognize and utilize screening tools to identify toxic stress and risk factors for emerging clinical problems.
- Identify principles and practices for the "trauma informed" primary care provider setting.
- Explore emerging non-pharmacologic treatments and future directions in the care of children and adolescents with emotional, relationship, and behavioral problems.

Accreditation and Credit

VCU Health Continuing Medical Education is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

VCU Health Continuing Medical Education designates this live activity for a maximum of 5.5 **AMA PRA Category 1 Credits™**. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

VCU Health Continuing Medical Education awards **5.5** hours of participation (equivalent to **AMA PRA Category 1 Credits™**) to each non-physician participant who successfully completes this educational activity.

Successful completion of this CME activity, which includes participation in the activity, with individual assessments of the participant and feedback to the participant, enables the participant to earn 5.5 MOC points in the American Board of Pediatrics (ABP) Maintenance of Certification (MOC) program. It is the CME activity provider's responsibility to submit participant completion information to ACCME for the purposes of granting ABP MOC credit.
