Course Description

Nursing Professional Development (NPD) practitioners and other healthcare educators are transforming professional practice to improve patient and health outcomes. Attend the Pathways to Knowledge Conference to ignite your passion, inspire yourself and others, and innovate your practice. Leave empowered, engaged, and energized to transform the future of professional development!

Target Audience

This activity is designed for nurses and others involved in the development of healthcare professionals.

Course Objectives

At the conclusion of this activity, learners will be able to:

- Develop strategies that are essential for successful nursing professional development (NPD) practice in the multisite setting.
- Consider what infrastructures are necessary to support, extend, and strengthen NPD practice and impact, particularly in the multisite environment.
- Make use of the Single Preceptor Model, Married State Preceptor Model, and the Team Preceptor Model.
- Begin using simulation/computer-based case studies as a strategy for developing the competencies of preceptors.
